Here's how the invite will look before you have accepted

Once you confirm that you are going, you'll see this screen with the details of the ride and the all-important start time. If you don't accept the invitation you won't be able to join the ride.

There is a countdown clock. **IF YOU MISS THE START OF THE RIDE YOU CANNOT JOIN THE GROUP.** Even if you catch up you won't be part of the group, so you won't get the use of the "keep everyone together" feature

Countdown clock.
YOU CAN'T JOIN LATE.
 It's a good idea to be on Zwift 5-10 minutes before the meet up to allow you to warm up and to make sure that you are ready when the ride starts

On the main Zwift app (the Orange one not the blue one) choose a world to ride in—this can be anywhere as the Meet Up will automatically put you in the right place before the group ride starts.

As some people have asked here's what the screen looks like to choose the route that you want to ride when not doing a meet up.

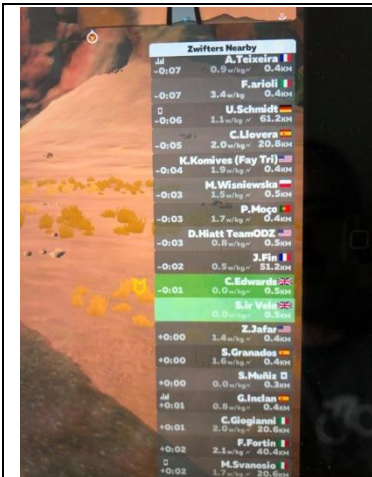

When you ride on your own your name is highlighted in blue. You can see the riders around you and how far in front of/behind you they are in seconds.

5 minutes before the Meet Up starts you will see a 'join group' button in the bottom left corner of the screen (you need to be already riding to see this)
 Tap it and you're in!

	<p>You've now joined the group your avatar will appear with others at side of road and countdown clock in corner – keep pedalling</p>
	<p>Countdown clock – you must be pedalling – once the clock reaches 0:00 the event will start. If you're not pedalling, you won't be able to ride in the group.</p>
	<p>The Golden Arrow shows the ride leader/organiser and is a useful feature when the group is riding in crowds.</p>
	<p>Sometimes shows like this</p>
	<p>Once we are riding as long as you don't stop pedalling you will stay with the group because the setting keeps everyone together. The group will travel at the average speed of all riders in the group, so no slacking</p>

Once you have joined the ride and we have started the names of all of the riders in our group will be highlighted in green. That's how you can tell that you are in the group.

If you do want to leave the group before the end of the ride tap the screen and this option appears in bottom left corner
